

## DELEGATE BIOGRAPHY

### Australia - Delegate Biography

<b>First Name</b>	Jason	
<b>Last Name</b>	Chaffey	
<b>Title/Position</b>	Commercialisation Director	
<b>Affiliation</b>	Panorama Synergy	
<b>Email</b>	jchaffey@panoramasynergy.com	

Dr Chaffey has been actively involved in MEMS technology, product development and engineering for over 15 years. He is currently the Commercialisation and Manufacturing Director at Panorama Synergy, a ASX listed company commercialising its LumiMEMS technology for sensing. Prior to this, Jason was the CEO and Managing Director of Bluechiip, an ASX listed MEMS company.

During the course of his career, Dr Chaffey has had experience ranging from industrial design, product concepts and product transfer for both MEMS, electronics, mechanical and software products. Jason has worked with developing and transferring MEMS devices to commercialisation at IMT (USA) and ST Microelectronics (Italy).

Dr Chaffey received his Bachelors in Advanced Science at the University of New South Wales (Sydney) and his PhD from RMIT University (Melbourne).

He is a member of the Institute of Physics, member of the MEMS Industry Group (MIG) Association and past Chair of the Australian Delegation for the Micromachine Summit.
